

A powerful blend of strong acids and surfactants made for cleaning of stained and maturated aluminum surfaces. This is an etching type of cleaner and is to be used for the periodic cleaning of aluminum trailer bodies and similar surfaces. It is not recommended for highly polished surfaces.

Where To Use

Aluminum truck bodies

Dilution

For Heavy Loads – 1/10

For Light Loads – 1/20

Directions

Use dilution table above to determine solution strength. Temperature, surface, soil load, etc. will effect cleaning rate. Apply uniformly at low pressure starting from bottom and working up. Let stand 1-2 minutes. Pressure rinse thoroughly. When diluting always add acid to water not water to acid.

Technical Specifications

COLOR: Transparent, Pink	VISCOSITY: Water Thin
FORM: Liquid	STORAGE(Unopened):..1 Year @R.T.
SCENT: Sharp, Irritating	BIODEGRADABLE: ...Yes
pH: < 1	WEIGHT/GAL:9.0 lbs.
FLASH POINT: None	SHIPPING CLASS:8, Packing Gr II
FOAM: Medium	PACKAGING:5 gal(UN), 55 gal
TYPE: Hydroflouric Acid Aluminum Brightener
