

A specially formulated and concentrated solvent based emulsion-type carpet cleaner for use with cotton or synthetic bonnets. It quickly penetrates and removes soils from heavy traffic areas. Its unique formulation results in a very quick drying time.

Tip: Bonnet Master is an excellent spot remover. Use a heavy dilution, spray spot, blot dry with an absorbant cloth.

Where To Use

Hotels	Offices	Meeting Rooms
Hospitals	Restaurants	Department Stores
Airports	Schools	

Dilution

Heavy Duty – 1/5 (approx. 24 oz./gallon)
Medium – 1/8 (16 oz./gallon)
Light – 1/10 (approx. 12 oz./gallon)

Directions

Shake product well prior to use. Spot test– spray the diluted solution on an inconspicuous spot, wipe with white cloth. If no bleeding occurs, proceed with application. Bonnet Master can be applied according to the following methods: (1) SPRAY METHOD – Dilute Bonnet Master, using the table above, into a quart sprayer or pump sprayer for larger areas. Spray carpet using a coarse spray pattern. Dip a clean bonnet in cold water and wring out. Place bonnet on floor machine and scrub carpet. Be sure to keep machine moving over the carpet. (2) WET PAD – Using dilution table, dilute product in a mop bucket with wringer attached. Immerse a clean bonnet in solution and wring out. Place bonnet on machine and scrub carpet. When bonnet becomes soiled, reverse and use the other side. When both sides become soiled, clean and rinse bonnet and repeat the cleaning procedure. Prepare a fresh batch when solution becomes dirty. After carpet has dried, use a deck brush or pile rack to restore the pile.

Technical Specifications

COLOR: White, opaque	VISCOSITY: Water Thin
FORM: Liquid	STORAGE(Unopened):..1 Year @R.T.
SCENT: Spearmint	BIODEGRADABLE: ...Yes
pH: 6.8	WEIGHT/GAL:8.3 lbs.
FLASH POINT: 110° F	SHIPPING CLASS:None
