

*Our strongest spray cabinet stationary parts washer cleaner that removes oil, grease, carbon and sludge from motor blocks, engine parts, etc. It will strip paint and cannot be used on aluminum, magnesium or other highly polished metals.*

### Where To Use

Transmission Shops      Maintenance Garages  
Auto Body Shops

### Dilution

2-8 oz./gallon

### Directions

Be sure that water temperature is above 140°F before adding parts. Add powder slowly to avoid caking. Foam tends to appear in cold water.
