

# Magnum

## Chrome & Wheel Cleaner

## Automobile

### Description

Magnum is a mildly acidic, perfected formula used to effectively and safely clean automotive wheels made of chrome, aluminum ally, and other polished metals. This product works quickly to remove tough grease, brake dust, road film, tar & asphalt, bugs and other problem accumulations due to neglect. This mild phosphoric acid formulation quickly brightens wheels and restores them to their original factory finish.

### Directions for Use

This product is designed for use in a tunnel car wash through automatic injectors, or through a trigger or pump-up type sprayer in detail shops and cleaning shops. This product is Ready to Use.

### Safety Cautions

- Keep out of reach of children
- Prior to using this or any cleaning product, make sure employees read and understand the hazard information found on the product label and Material Safety Data Sheet (MSDS). The label and MSDS will also provide information on handling precautions, protective equipment and first aid instructions which might be appropriate for this product.

### Features & Benefits

- Safe Acidic Formulation
