

“A BREATH OF FRESH AIR”

SIMONIZ
ODOR-OUT™

THE EFFECTIVE WAY TO ERADICATE, **NOT MASK**
ODORS AND ODOR CAUSING BACTERIA

SIMONIZ ODOR-OUT™ DELIVERY SYSTEM

What's In Your Vehicle?

Odors, odors and more than just odors.

In addition to odors related to pets, tobacco, food, vomit, mold and mildew, there are more than 500 different fungi, viruses, bacteria and their spores that thrive in vehicles. Door handles, seats and floors are breeding grounds for germs that do more than just devalue a vehicle; they are hot spots for dangerous viruses and serious illness as well. Whether it's new or pre-owned, drivers want a vehicle that is deodorized, decontaminated and sanitized. Masking odors with odor bombs, aerosols, sprays and ionizers still leaves behind bacteria and smells that can affect a drivers health.

As people spend more time commuting, transporting and traveling, a clean, odorless and bacteria-free environment is essential.

No one wants a vehicle that smells and makes them sick!

What's The Solution?

Simoniz ODOR-OUT Delivery System

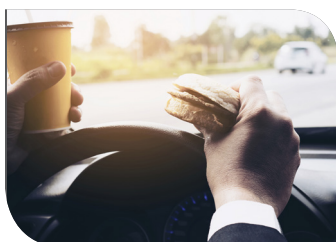

Simoniz ODOR-OUT is a fast, safe and most effective solution for eradicating odors and odor causing bacteria in vehicles. It contains no dangerous VOC's, phthalates or ozone.

Upon contact with water, Simoniz ODOR-OUT tablet is self-activated to release chlorine dioxide (ClO_2) gas, a safe biocide, in an easy-to-use delivery system. Because it exists as a vapor, it can penetrate any porous material or surface throughout the vehicle, allowing direct contact with odor causing compounds such as bacteria, mold, viruses and mildew as well as odors originating from food, tobacco, pets and more.

How to Use?

Simply drop one 20 gram Simoniz ODOR-OUT tablet (Sani-Tab 20G) in 4 ounces of water. Turn A/C on and allow Sani-Tab to fully dissolve and dissipate. Process takes approximately 2 hours. For a more rapid eradication of odors and odor causing bacteria, the Simoniz AUTO EFFICIENCY AERATOR is recommended. Using this device, odors are eliminated within approximately 20 minutes.

One Simoniz ODOR-OUT Sani-Tab tablet treats a 400 square foot area.

What are the Benefits?

of SIMONIZ ODOR-OUT™
Delivery System?

- ✓ **SIMPLE** to use vapor release system
- ✓ **REMOVES** musty, pet, tobacco smells and other hard to destroy organic odors, mold and mildew

- ✓ **LEAVES** no residue
- ✓ **SAFE** to use on common automotive fabrics and materials
- ✓ **ECO-FRIENDLY**, non-toxic and biodegradable disposable packs

Where to Use?

New and Pre-Owned Car Dealership, Rental Agencies:

While vehicles may look and smell new, there is odor bacteria and other organisms often there or left behind by previous owners or rental loaners. That's why you need Simoniz ODOR-OUT.

Auto Detailing, Commercial Truck and Bus Operations:

Use Simoniz ODOR-OUT to effectively eliminate odors and odor causing viruses, fungi, bacteria and their spores. Odor bombs, ionizers and aerosol sprays that are often used just mask odors and odor causing bacteria. They **do not** eliminate them.
