

EC-50 Low Temperature Dishwasher Sanitizer

EP776

EC-50 is an economical, general purpose sanitizer and destainer for manual or automatic dishwashing in low temperatures. This chlorine-based sanitizer is specially formulated to chemically eliminate germ-carrying bacteria from pre-cleaned dishware, glasses and food service utensils. EC-50 can be automatically dispensed to ensure dosing accuracy and eliminate chemical waste. The biodegradable formula is EPA registered. USDA Authorized.

Where To Use

Hospitals	Institutional Kitchens	Colleges
Restaurants	Delicatessens	Universities
Schools	Diners	Cafeterias

Directions

When used through an automatic dispenser use strength should be 50 ppm. Use a chlorine test kit of chlorine test strips to ensure the proper strength is used at all times.
