

# PX-Plus

Extraction Powder fortified with Oxygen

## Carpet Care

### Description

PX-Plus is recommended for use in portable, truck mounted, or self-contained equipment. PX-PLUS powder is 100% biodegradable, contains complex surfactants and is effective on both natural and synthetic fibers. Highly concentrated for effective cleaning in hotels, motels, schools, hospitals, and homes. This modern, controlled suds formula is designed to act quickly to break down stubborn dirt, grease and oils. PX-PLUS Powder also provides a thorough cleaning combination and prevents redepositing of particulate which causes discoloration and a break down in the strength of fibers. Instead of using strong alkaline booster compounds, PX-PLUS Powder takes advantage of modified detergents to boost the cleaning process.

### Directions for Use

For general cleaning use approximately 1-2 scoops (2-4 ounces) per 3 gallons of hot water. Truck mounted systems should use 24 ounces per 5 gallon holding tank. Adjust meter in accordance to desired results. Always follow manufacturer's general cleaning guidelines to retain quality of goods and any warranties.

### Safety Cautions
