

A ready-to-use water based silicone emulsion, formulated to be used on plastic, vinyl and rubber surfaces (i.e. tires).

Where To Use

New Car Dealers	Car Rental Agencies	Dashboards
Car Washes	Used Car Dealers	Door Panels
Fleet Accounts	Detail Shops	Plastic Car Molding

Dilution

As is.

Directions

Make sure that these surfaces have been previously cleaned and are dry, prior to applying the vinyl dressing. Then simply spray on and let dry for a glossy shine. If a satin shine is desired, wipe dry.
