

A dramatic, high-contrast image of a car being washed. Multiple powerful jets of water are directed at the car, creating a misty spray. The car's front end, including the grille and headlights, is visible on the left. The background is dark, making the bright water jets stand out.

Environmentally Safe

**Enhanced Reclaim
Water Quality**

**Improves Chemistry
Activity**

Improves Gloss

**Improves Surface
Protection**

Easier Surface Rinsing

Dryer Vehicles

Introducing the **NanoBubbler**

**Nanobubble Technology
Will Provide You With
Cleaner, Drier, Shinier Cars**

SIMONIZ®

The future of chemistry performance with
ADVANCED TECHNOLOGY

Welcome

to a New
Generation Of Car
Wash Chemistry &
Water Performance

What are NANOUBBLES?

- Tiny stable bubbles less than 200 Nanometers in diameter that dramatically enhance water performance
- 2,500 times smaller than a grain of sand
- Neutrally Buoyant, nanobubbles remain suspended in water for long periods of time

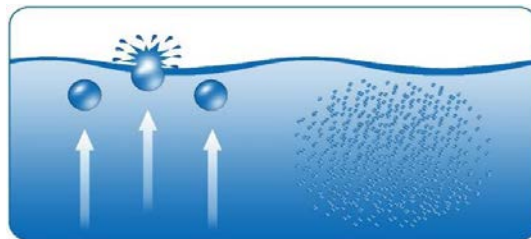

The NANOUBBLE Advantage

- Breakdown and remove scale and rust
- Removal and prevention of Biofilm
- Improves heat transfer resulting in elevated chemistry performance
- Lowers Surface Tension, producing enhanced cleaning and drying
- Reduces and inhibits bacterial growth voiding the progression of reclaim odors
- No electricity needed, Minimal Maintenance, 10+ year lifespan

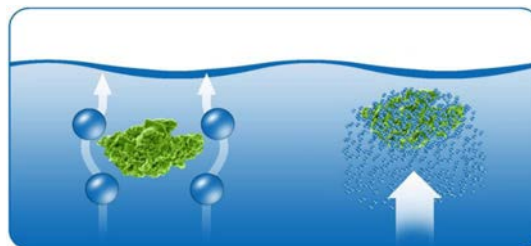

SIMONIZ

Larger Bubbles "Float" to the Surface
Nanobubbles remain suspended in the water
Enhancing oxidation characteristics

Lowering Surface Tension stimulates our chemistry
producing added Cleaning efficiency, unrestricted
Rinsing and superior Drying Power

NO POWER, NO PROBLEM,
JUST PERFORMANCE

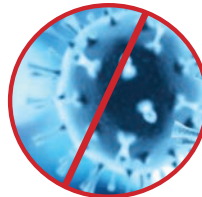

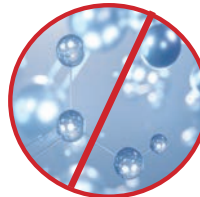

The PERFECT Prescription for Reclaim GETS BETTER!

- Totally Compatible Cationic System
- Ph Balanced, further reduces bacterial growth and improves rinsing
- VOC Compliant, No Butyl Solvents or Phosphates
- Fully Biodegradable
- Improved Visual affects
- Surfactant Balanced improves cleaning and separation of oils and solids

No Bacteria

No Anionics

No Butyl Solvent

No Oil

CRS NANOBUBBLES

Powered by **SIMONIZ**

The Highest Quality Performing
Finish Products Advance!

- Simoniz® Hot Wax and Shine a pure carnauba wax layer has improved Gloss
- Simoniz® Ceramic Sealant magnifies depth and hydrophobic protection
- Simoniz® Carbonite with Graphene solidifies and hardens the surface
- All producing advanced Anti Corrosion properties, increased Durability and Protection and the Cleanest, Driest, and Shiniest vehicles in the Industry!

SEE THE DIFFERENCE

Why Operators LOVE This Combo?

- Performance for all washes
- Tunnels
- IBA's
- Self Serve's

Are you ready to Upgrade?
Ask your Simoniz® Professional today!

SEE THE DIFFERENCE

Integration Made EASY!

- Easy Installation
- Low Maintenance
- Cleaner Pits
- Better Water
- Eco Friendly
- Improves Overall System Health
- Long Term Savings

—Testimonials—

I am completely blown away at how the cars look! We are washing with over 90% reclaim water. Odor is gone and our cars are coming out shiny and dryer than they have ever before! It's amazing my windows are so clean they look nonexistent! I can't thank Simoniz enough. CRS Nanobubbles and Simoniz RX for the win!

Nick Vercollone, Briteway Car Wash

The Pic's of our water and cars don't do this justice. Our reclaim water has more clarity than it did just a couple of days ago, without adding any fresh water. The chemistry combined with the nanobubbles are doing great! Cars are definitely shinier and dryer.

Anthony Ciampi, Minit Car Wash

**Cleaner, Drier, Shinier, Safer
 and Smarter Systems**
