

A WORLD CLASS  
TRAINING CENTER

## Hands on training at our State-of-the-Art **SIMONIZ® UNIVERSITY**

**Perfect instructional training for tunnel operators and staff to better understand:**

- Why certain chemicals work better in different applications and environments
- How to maximize the clean, shine and dry on your customer's vehicle
- Chemical safety and how to develop a pro-active program at your facility
- Network with other operators who are interested in being the best in class in their respective markets
- Complete instructional training on chemical dispensers and delivery systems
- First class trainers
