

For use in automatic dish machines where heavy soils are encountered. Effective in all water conditions.

Where To Use

For use in automatic dispensing systems or institutional dishwashers in restaurants and other food service establishments.

Dilution

Dilution Rates vary according to water conditions. Approximately 1/4 to 1/2 oz per gallon capacity of dishwasher.

Directions

1. Scrape and pre-rinse dishes before washing.
2. Properly rack and load dishes according to machine manufacturer's directions.
3. Swell Low Temp Detergent may be used with a probe or probeless dispenser. Set dispenser according to the manufacturer's directions.
