

*A highly alkaline, concentrated, chlorinated liquid for removal of proteinaceous soils from processing equipment in food related industries.*

### Where To Use

- Meat plants
- Beverage plants
- Dairies
- Fish processing plants

### Dilution and Directions

DEFEND can be used in either hard or soft water. A solution of 1 ounce per gallon yields 200 ppm chlorine.

1. Manual Cleaning - Use at 1 - 3 ounces per gallon for manual brushing. Wear protective gloves and eye protection. Follow with potable water rinse.
2. Pressure Washing - Use at rate of 1 or 2 ounces per gallon for high pressure washing. Use potable water rinse.
3. Foam Cleaning - Use at 3 to 4 ounces per gallon alone, or with foam additive. Follow with potable water rinse.
4. Do Not use on aluminum or magnesium.

### Technical Specifications

COLOR: .....	Colorless	STORAGE(Unopened): .	1 Year @R.T.
FORM: .....	Liquid	BIODEGRADABLE: ...	Yes
SCENT: .....	Bleach	WEIGHT/GAL: .....	10.2
pH: .....	14.0	SHIPPING CLASS: .....	8, Packing Gr III
FLASH POINT:	None	USDA:.....	A-1
PACKAGING: ..	5 gal, 30 gal, 55 gal		
TYPE:	Chlorinated Alkaline Cleaner
