

Extreme

High Heat Extraction Powder

Description

This unique carpet detergent was designed for use in extremely hot water. Many detergents break down and lose effectiveness in high temperatures but this pleasantly scented powder has been formulated for use today's ultra hot truck mounted extraction equipment. This product contains complex surfactants, which make it highly effective on natural and synthetic fibers

Directions for Use

For residential and commercial carpets always pre-test in an inconspicuous location.

Truck Mount Use: Mix 20 ounces (2.5 cups) into 5 gallons of warm water until completely dissolved to make truck mount concentrate for use in chemical injection system. For stain-resistant carpet, set truck mount chemical injection system for 2 gallons per hour. For commercial and non-stain resistant carpet, set truck mount chemical injection for 3-4 gallons per hour.

Portable Use: For stain-resistant carpet, mix 2 ounces per 5 gallons of hot water. For commercial and non-stain resistant carpet, mix 2 ounces per 5 gallons of hot water.

Safety Cautions

- Keep out of reach of children
- Prior to using this or any cleaning product, make sure employees read and understand the hazard information found on the product label and Material Safety Data Sheet (MSDS). The label and MSDS will also provide information on handling precautions, protective equipment and first aid instructions which might be appropriate for this product.

Features & Benefits

- Effective in extremely hot water
- Powerful cleaners for use on residential and commercial carpet
- Cuts heavy, greasy soils
- Safe on stain-resistant carpet (See Instructions)
- Contains corrosion inhibitors

Specifications
