

Germafect

Phosphoric/HCL Acid Cleaner

Bathroom

Description

Germafect is a unique lavatory cleaner that is highly effective. It contains a special blend of acids, emulsifiers, softeners, fragrance and detergents. Product turns from green to blue when it hits the bowl. Germafect will remove most stains in one minute or less and is excellent for jobs never thought cleanable before. This complete lavatory cleaner provides excellent cleaning of rust, scale, water, and lime deposits. Germafect can be used on a variety of surfaces such as tile, porcelain, grout, and stainless steel.

Directions for Use

It is very important that this product not be used on aluminum. Due to the high acid concentration found in this product, it is important to rinse the outside of these surfaces. **For toilets:** Apply directly under rim and sides of toilet and allow 10 minutes contact time for badly soiled surfaces. If used daily apply 1 ounce of product to water and clean with bowl brush for immediate results.

Glazed Urinals: Apply 1 to 2 ounces to urinal surface mixing with water and swab total area. When used properly it will not harm solid porcelain china or vitreous ware.

Shower Stalls: Glazed and ceramic tile and grouting can be cleaned without damage.

Safety Cautions

- Keep out of reach of children
- Prior to using this or any cleaning product, make sure employees read and understand the hazard information found on the product label and Material Safety Data Sheet (MSDS). The label and MSDS will also provide information on handling precautions, protective equipment and first aid instructions which might be appropriate for this product.
