Green Liquid Laundry Detergent GL-180

Green Care

Description

This is a non-built liquid laundry detergent. **All components are biodegradable and recognized as safer for the environment by the EPA Safer Choice program.** It is designed to be equally effective in hot or cold water. This detergent is formulated for multi-component automatic dispensing systems where the toughest, most troublesome laundry problems exist. This product contains fast acting cleaning agents, and is effective on natural and synthetic fibers. This detergent is highly concentrated for use in hotels, motels, schools, hospitals, and nursing homes. It also provides a thorough cleaning by preventing re-deposition of particulate, which can cause discoloration and break down in the strength or fabrics. Cleaning is provided through the use of modified detergents rather than strong alkaline booster compounds.

Directions for Use

For general laundry usage use approximately 3 ounces per load for larger loading machines or for heavier soiled loads use 4 ounces per load. Automatic dispensing units are most widely used today for simplicity, due to the fact that they are programmed to deliver exactly the amount needed for different sized loads and solid levels. In most cases, the average 50-pound commercial machine will require 4 to 8 ounces per load.

Safety Cautions

- Keep out of reach of children
- Prior to using this or any cleaning product, make sure employees read and understand the hazard information found on the product label and Material Safety Data Sheet (MSDS). The label and MSDS will also provide information on handling precautions, protective equipment and first aid instructions which might be appropriate for this product.

Features & Benefits

- EPA Safer Choice recognized for safer chemistry
- Works well in high efficiency machines
- Economical highly concentrated
- Formulated for multi-component systems
- Contains anti-redeposition ingredients
- Cleans with modified detergents
- Quickly breaks down greases and oils
- Rinses freely and completely
- pH neutral in wash solution so it is gentle on fabrics (4-8oz per was load in 50lb commercial machine)
- Meets NFPA 1851, Standard on Selection, Care, and Maintenance for Structural Firefighting and Proximity Firefighting Ensembles

Specifications

Appearance:	Clear Liquid
Odor:	None
Specific gravity:	1.02 – 1.06
pH Concentrate:	10
pH @ dilution:	7
Biodegradable:	Yes
Detergency:	Excellent

Dilution

Medium Soil.....	3 ounces per load
Heavy Soil.....	4 ounces per load

Available Sizes

- Case / 4x1 gallon : Item # 601104
- Pail / 5 gallon : Item # 601105
- Drum / 55 gallon : Item # 601106
