Hospitals	Colleges	Institutions
Restrooms	Schools	Nursing Homes

Dilution

1-2 oz. per gallon depending on soil load.

WALL MOUNT UNIT
#HYDSP3066

PORTABLE UNIT
#SL1SGAP

Directions

Master Blend Outdoor Fresh #3 is designed to be diluted at 1-2 oz. per gallon through the Simoniz Master Blend Dilution Systems. The Master Blend systems are preset for a 2 oz. per gallon dilution for filling quarts and 1 oz. per gallon (wall mount unit) for the bucket fill. If a different dilution is desired, please see the instructions with the dispenser to determine the correct metering tip. (Portable Master Blend units are preset at 2 oz. per gallon). Simply attach the half gallon to the dispenser via the cap at the end of the draw tube (wall mount) or attach the portable unit directly on to the half gallon and fill either quarts or mop buckets. If using this product with another dispenser, use the appropriate tip for the desired dilution. (Please note, in order to use Master Blend products with other dispensers, part number C38CS4W must be attached on the pickup tube.)
