

*An outstanding, competitive priced, all purpose pressure washing liquid that gives excellent results in cold water and represents a major break through in the fight to clean road film. Its high concentration and unique formulation results in high end use and is the product of choice in many cleaning operations. Safe for aluminum and glass and has excellent rinsing and non-streaking characteristics.*

### Where To Use

Presoak                      Self Serve Car Washes                      Conveyor Car Washes  
House Washing              General Pressure Washing

### Dilution

Light Duty – 1/128 (1 oz./gallon)  
Heavy Duty – 1/30 (4 oz./gallon)

### Directions

For Pressure Cleaning - Dilute according to table above through pressure washer. Do not apply to hot surfaces directly. Pre-wet with water. Apply to a workable area, concentrating solution on badly soiled or greasy areas. Pressure rinse. Continue process until vehicle is clean.
