

A quaternary ammonium detergent, disinfectant, cleaner, fungicide, sanitizer and mildewstat. Does not require a potable water rinse. Effective against Salmonella choleraesuis and Staphylococcus aureus.

Where To Use

Hospitals	Nursing Homes	Institutional Housekeeping
Schools	Food Service	Food Utensils and Equipment
Restaurants	Dairies	Food Contact Areas
Bars		Food Processing Plant

Dilution

General disinfection - 1/64 (2 oz./gallon)
Sanitization - 1/160 (.8 oz./gallon)
Hospital disinfection - 1/42 (3 oz./gallon)
Bactericidal - 1/64 (2 oz./gallon)

Directions

Remove or pre-clean soil and gross dirt from area to be sanitized or disinfected. (Pre-cleaning is not necessary for normal amounts of soil).

For general disinfection - Apply dilution with mop, cloth, sponge or hard pump tripper spray. Be sure to wet the entire surface thoroughly. Allow to remain wet for 10 minutes.

For sanitization - Pre-clean surface with a good detergent and rinse with potable water. Thoroughly wet the surface or immerse utensils in dilution. The solution must be in contact with surface for at least 60 seconds. Remove utensils from solution and let air dry. Prepare a fresh solution for each use. When used for sanitizing pre-cleaned surfaces at the sanitizing dilution of 200 ppm, a potable rinse is not required.

Technical Specifications

COLOR: Transparent	EPA Reg No: 1839-49-18305
FORM: Liquid	STORAGE(Unopened): 1 Year @R.T.
SCENT: Odorless	BIODEGRADABLE: ..Yes
pH: 11.4	WEIGHT/GAL:8.7 lbs.
FLASH POINT:.. None	SHIPPING CLASS:None
VISCOSITY: Water Thin	PACKAGING:4x1, 5 gal, 55 gal
FOAM:..... Low	HOSPITAL GRADE:.... Yes
TYPE: No Rinse Quaternary Ammonium Disinfectant/Sanitizer
