

A low foam caustic cleaner particularly suited for operations that require minimum foam. It is an excellent circulation cleaner primarily used for the removal of proteinaceous soils from food processing equipment and for cleaning stainless steel smokehouses.

Where To Use

Food processing plants	Dairies
Restaurants	Meat plants

Dilution

1/32 – 1/64

Directions

Application to inner walls, ducts and coil may need a stronger solution. Spray thoroughly to remove all oils and fats. A high pressure rinse of hot water will greatly assist in carrying away the soil. Strike may also be used to clean tile, brick or metal lined smokehouses. Dutch loaf ovens are cleaned similarly using procedure outlined above.

Technical Specifications

COLOR: Dark Brown	STORAGE(Unopened): . 1 Year @R.T.
FORM: Liquid	BIODEGRADABLE: ... Yes
SCENT: Odorless	WEIGHT/GAL: 10.0
pH: 14.0	SHIPPING CLASS: 8, Packing Gr II
FLASH POINT: None	USDA:..... A-4, A-8
FOAM:..... Low	PACKAGING: 5 gal, 30 gal, 55 gal
TYPE: Alkaline, Caustic Cleaner
