

Winter Rinse Neutralizer

W4115

This product is formulated to remove winter salt and chemical stains from floors, carpet and equipment. Use as a neutralizer for floor stripper solutions prior to applying floor finish.

Where To Use

Schools	Office Buildings	Hotels
Vinyl Floors	Carpeting	Terrazzo
Ceramic Tile		

Dilution

Neutralizing salt on floors - 1/40 (3 oz per gallon)
Salt stains on carpet - 1/40 (3oz per gallon)
For lighter cleaning mix at 1/128 (1 oz per gallon)

Directions

Not recommended for surfaces harmed by acids. Test in an inconspicuous area prior to use.

Dilute according to chart above. Apply with a clean mop and allow to soak for 3-5 minutes. Rinse with clean water. To eliminate salt stains on carpet, follow dilution directions above using cold water in a carpet extractor. Do not mix with other detergents or chemicals. To remove heavy film from equipment, dilute at 6 ounces per gallon of water. Spray over equipment and allow 3-5 minutes dwell time. Rinse with clean water.
