

Concrete Cleaner, Powder

DESCRIPTION

This is a high alkaline powder cleaner for scrubbing concrete. Concrete Cleaner works great for garages, gas stations, poultry plants or warehouse cleaning. It cleans grease, oil, dirt, tire marks, etc. Product is free rinsing and non-dusting.

INSTRUCTIONS

Concrete Cleaner can be used with cold or warm water.

MANUAL: Scrape and sweep up all caked dirt and grease from floor before wetting down with water. Sprinkle product onto the floor while floors are still wet. Scrub floor with a stiff bristle brush. Let stand for a few minutes, then rescrub floor with a brush. Rinse thoroughly.

AUTOMATIC FLOOR MACHINE Mix powdered concrete cleaner at 2 cups per 10 gallons of water into solution tank. Apply at a rate and speed that will ensure a good coverage and a sufficient cleaning.

FEATURES

- Highly concentrated
- Rinses freely
- Pleasant odor
- Cuts grease, grime, encrusted soils
- USDA Approved
