

S16 GLASS CLEANER CONCENTRATE

DESCRIPTION

This concentrated glass cleaner is an advanced formula containing special cleaners that "wick" into the cleaning cloth and evaporate completely to leave a non-streak, squeaky-clean surface. Quickly removes fingerprints, grease, and other soils.

INSTRUCTIONS

After product is diluted 10 to 1 it can be used in the following manner.

Glass & Mirrors - Spray a light mist onto surface. Wipe over entire surface and polish dry. For best results use two lint-free paper towels or cloths. Wipe clean with the first cloth and polish with the second dry cloth. A sponge may be used, followed by drying with a squeegee or paper towels.

Plexiglas - Particles of soil on Plexiglas may scratch its soft finish. Spray on and clean only with a soft cloth first, polish and dry with a second cloth.

Other Hard Surfaces - Simply spray on and wipe off. Then polish with a dry cloth.

FEATURES

- Non streaking formula
- Concentrated
- Dilute 10 to 1
- Leaves glass and hard surfaces sparkling

SPECIFICATIONS

Appearance: Blue Liquid
Odor: Alcohol
Specific gravity: 1.00
pH: 9 - 10

Effective pH range: 5.5 - 10.5
Effective temperature : 45 - 130⁰ F
Detergency: Excellent

SAFETY

Keep this and all chemicals out of the reach of children! This product is non-toxic, non-corrosive, and non-irritating. Since this product contains no acid or caustic agents, dangers such as massive heat generation and blow back are eliminated.
