SAFETY DATA SHEET

SECTION 1 - Chemical Product and Company Identification
Product Identifier: EverZorb (Super Absorbent)
Product Class: Amorphous Sodium Potassium Aluminum Silicate
Product Use: Industrial and Commercial Applications as Absorbent, Spill Pick-up Product

Simoniz USA, Inc.
201 Boston Turnpike
Bolton, CT 06043
1-800-227-5536
Emergency Telephone Number: (800) 255-3924 (CHEM-TEL)

Preparation date of SDS: May 30, 2015

SECTION 2 – Hazards Identification

2.1 Classification of the substance or mixture
Skin Corrosion/Irritation, Category 3
Serious Eye Damage/Eye Irritation, Category 2B

2.2 Label elements, GHS-US labelling

Product Identifier: Perlite (Expanded) CAS# 93763-70-3

Signal Word: WARNING  Symbol(s):
Hazard statement(s): May cause mild skin irritation. May cause eye irritation. Respiratory Irritant.

Precautionary statement(s):
Prevention
Treat as a nuisance dust. Avoid creating dust. Use adequate ventilation. NIOSH approved respirator or dust mask recommended. NIOSH approved dust goggles recommended.

Response
Flush eyes with clean water. Wash skin with mild soap and water. Remove to fresh air.

Supplier Identification: Manufacturer
Whittemore Company, Inc. 30 Glenn Street, Lawrence, MA 01843
PH# 978-681-8833 www.whittemoreco.com

Supplemental Instructions, based on route of entry:
Skin contact: Repeated or prolonged contact may cause irritation due to drying effect of perlite.
Skin absorption: N/A
Eye contact: May irritate or injure eyes, mechanically
Inhalation: Upper Respiratory Irritant: May aggravate pre-existing respiratory conditions due to drying effect. Long-term inhalation of respirable crystalline silica can cause disabling lung disease (silicosis).

Ingestion: LD\textsubscript{50} not established, presumed over 10,000 mg/kg

Sensitization: Non-sensitizing

Emergency Overview: The fine particle size products represent inhalation hazards that can readily be controlled with appropriate dust protection equipment. Avoid processes that generate unnecessary dust.

WHMIS Symbols:

Potential Health Effects: See above regarding long term exposure: skin irritation, silicosis and eye irritation

2.3 Other hazards not contributing to the classification: N/A

SECTION 3 – Composition/Information on Ingredients

Product Description/Components: Expanded perlite powder or granules, CAS# 93763-70-3

<table>

Quartz: Oral, rat LD\textsubscript{50}: >20,000 mg/kg  
LC\textsubscript{50}: Not Available

*Reads as (less than one tenth of one percent)

SECTION 4 – First Aid Measures

Skin Contact: Wash off with soap and water. Skin lotion will quickly replace oils lost due to drying effect of perlite.

Eye Contact: Flush eyes with plenty of water.

Inhalation: Remove to fresh air. Seek medical attention if victim is not breathing or uncomfortable.

Ingestion: Do not induce vomiting. Rinse mouth.

SECTION 5 - Fire Fighting Measures

Flammable: No. Packaging may be flammable.

Means of Extinction: Use extinguishing media appropriate for surrounding material.

Explosion Data - Sensitivity to Impact: N/A

Explosion Data - Sensitivity to Static Discharge: None, unless mixed with combustible materials.

Hazardous Combustion Products: N/A

NFPA: Health: 0, Flammability: 0, Reactivity: 0, Other: None

HMIS Ratings: Health: *(See SDS), Flammability: 0, Reactivity: 0, Personal Protection: E

SECTION 6 - Accidental Release Measures
Leak and Spill Procedures: Normal clean-up procedures. Care should be taken to avoid causing dust to become airborne. Vacuum cleaning systems are recommended. Wetting spilled material with water may control dust and make clean up easier.

SECTION 7 - Handling and Storage
Handling Procedures and Equipment: Avoid creating unnecessary dust.
Storage Requirements: Store with other dusty materials, away from products that could be affected by dust.

SECTION 8 - Exposure Control/Personal Protection

COMMENTS

Exposure Limits
ACGIH TLV: 10 mg/m³ total dust
3 mg/m³ respirable dust
OSHA PEL: 15 mg/m³ total dust
5 mg/m³ respirable dust

Engineering Controls
General: Good housekeeping rules apply
Local Exhaust from work stations using this material
Recommended Personal Protective Equipment:
- Plastic or Rubber Gloves if skin irritation occurs
- Respirator – NIOSH/OSHA/MSHA approved dust respirator adequate for contaminant concentrations encountered.
- Eye protection recommended
- Disposable footwear for frequent handling of this material
- Coveralls for frequent handling of this material

SECTION 9 – Physical and Chemical Properties
Physical State: Solid powder or granules
Odor and Appearance: White to off white powder or granules with no odor
Odor Threshold (ppm): N/A
Specific Gravity: 2.35
Vapor Density (air=1): N/A
Vapor Pressure (mmHg): N/A
Evaporation Rate: N/A
Boiling Point (°C): N/A
Freezing Point (°C): N/A
Flash Point (°C) and Method (open cup or closed cup): N/A
Upper Flammable Limit (% by volume): N/A
Lower Flammable Limit (% by volume): N/A
Autoignition Temperature (°C): N/A
pH: 6.5 – 7.5, as 10% slurry in distilled water
Coefficient of Water/Oil Distribution: N/A
Solubility in Water: Negligible

Visual Detection Method Only

SECTION 10 - Stability and Reactivity
Chemically Stable?: Yes
Incompatibility with other substances?
Yes: Hydrofluoric acid (HF)
Reactivity, and under what conditions?: Toxic silicon tetrafluoride gas will result with contact with hydrofluoric acid.

Hazardous Decomposition Products: See above

SECTION 11 - Toxicological Information
Effects of Acute Exposure: Slightly hazardous in case of skin contact (irritant), of eye contact (irritant), or in case of inhalation (irritant).

Effects of Chronic Exposure:
Irritancy of Product: Potential for creating skin dryness.
Respiratory Irritation: Upper Respiratory Irritant: May aggravate pre-existing respiratory conditions. Long-term inhalation of respirable crystalline silica can cause disabling lung disease (silicosis). For a comprehensive review, see: http://www.ncbi.nlm.nih.gov/pmc/articles/PMC4002636/
Carcinogenicity: These products contain less than 0.001% (less than one tenth of one percent) crystalline silica, and low percentages of particles of respirable size, hence present very low risk.
IARC: Not reviewed
ACGIH: PNOS (Particulates Not Otherwise Specified), Not carcinogenic
Reproductive Toxicity: Not available
Teratogenicity: Not established
Embryotoxicity: Not available
Mutagenicity: Ames: Not available

SECTION 12 – Ecological Information
Aquatic Toxicity: Low hazard for usual industrial or commercial handling. Approved for use in soils.

SECTION 13 – Disposal Considerations
Waste Disposal: Dispose of this product in accordance with all applicable local, state and Federal regulations.

SECTION 14 – Transport Information
Special Shipping Information
DOT: No special requirements
IMO: Non-hazardous
ICAO: Non-hazardous

SECTION 15 – Regulatory Information
WHMIS CLASSIFICATION: D2B (Toxic)
OSHA: Label as required by Hazard Communication Standard 29 CFR 1910.1200 (f) and applicable state and local laws and regulations
TSCA: Included as a naturally occurring material
CANADA DSL: Included or exempt

SECTION 16 – Other Information
This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the SDS contains all of the information required by CPR.
Information provided in this document is believed to be accurate as of May 30, 2015 and may be subject to change without notice. The information is provided in good faith to comply with applicable federal and state laws. However, no warranty or representation with respect to such information is intended or given. It is the responsibility of the user to comply with all applicable federal, state, and local laws and regulations.

Preparation date of SDS: May 30, 2015
