Antibac Foam Soap

AB0049

A high foaming hand soap that contains high quality ingredients to safely and effectively remove dirt, grime and microorganisms. It completely cleans dirty hands and is formulated to be non-irritating to sensitive skin and reduce cross contamination. Perfectly suited for health care, hospitality, and food preparation industries. Light green in color with a mild floral scent.

Where To Use

Schools	Office Buildings
Nursing Homes	Health Clubs
Restrooms	Hotels
Restaurants	

Dilution

Ready-To-Use

Directions

Apply foam to either wet or dry skin. Rub in lightly with water to a rich lather. Rinse and dry skin thoroughly.

Dispenser Bag Installation

Remove clear plastic cover from the end of the pump by pulling firmly. With the pump opening facing down and levers facing out, align white plastic disk around the pump with the groove in the dispenser and slide in. Gently push the bag into the compartment so it won't get pinched when closing the cover. To remove the empty bag, squeeze the two levers on the white plastic disk around the pump toward each other and slide the empty bag out.
